Notes for completion of the form of Disbursement request

[1] The Sovereign should number each request form. The first request for a grant disbursement will be number 1, the following requests will be numbers 2, 3, etc. It is up to the Sovereign to keep track of the number of all grant disbursement requests that it has made under the given grant agreement. The request forms should follow the same sequential numbering system, whether they are for a direct payment disbursement, or for the issue of a reimbursement commitment. The use of this numbering system avoids confusion in case forms are held up in the post, are faxed more than once, etc.

[2] Please state currency of actual payment required. This will be either the grant currency, or the currency of the expenditures (see [3] below). Alternatively, in some circumstances the Bank may agree to pay in a third currency, in which case it would act as the Sovereign's agent in order to obtain this currency.

If payment is required in more than one currency, then a different application form should be used per currency.

[3] The financed amount(s) are the original expenditures, in their original currency as detailed on the summary sheet, calculated at the appropriate percentage specified in the grant agreement for

the applicable eligible Grant Financed Item. The amount(s) given here should correspond with the total amount(s) in section [15] of the summary sheet.

[4] The value date is the date that the EBRD's account is debited with the payment amount of the disbursement. The EBRD cannot guarantee that the payee's account will be credited on the same date, as this depends on the procedures adopted by the clearing system or the recipient bank in the country of the payee. There should be 15 business days minimum between the date that the EBRD receives the application and the requested value date. If in fact the payment is needed as soon as possible, instead of on that specific value date, it may be better not to give a specific date, but to put "as soon as possible" in this field [4]. In that case the EBRD will make the payment in any case within 15 business days, but earlier if possible. (Please note payment can only be guaranteed within 15 business days if the disbursement request is correct and complete.)

[5] The Disbursement is paid out to the payee. Normally the payee will be the Contractor, but provided that the Bank has agreed otherwise in writing and the enclosed documentation (see the summary sheet) provides evidence that the borrower has already paid the Contractor, then payment may be made to the Sovereign.

[6] The payee's account name in most cases will simply be the name of the payee.

[7] The payee's account number is required to avoid delays. In a growing number of countries, banks will refuse to make payment if the payee's account number is not given in the payment instructions.

[8] The payee's bank is the bank where the payee's account is held. Please indicate bank name and town.

[9] Instead of the address, the sorting code or SWIFT code can be given.

[10] The correspondent bank of the payee's bank is only required if payment is not to be made in the currency of the country where the payee's bank is located. In that case, the correspondent bank is the bank, located in the country of the payment currency, with which the payee's bank holds an account.

[11] Instead of an address, the sort code or SWIFT code of the correspondent bank can be given.

[12] The payee's bank's account name in most cases will simply be the name of the payee's bank.

[13] The payee's bank's account number is essential if the payee bank holds more than one account with the correspondent bank, or if it is not a member of SWIFT (the international electronic payment settlement system). Otherwise this number is useful but not mandatory. Where applicable the IBAN No. (International Bank Account Number) should be quoted.

[14] The payment reference which the EBRD will send with the payment helps the payee to identify the payment. If no specific reference is requested, the EBRD will mention the Sovereign's name and the agreement number.

[15] Payee's email address is required for the Bank to send notifications of upcoming payments to the payee prior to the Bank making such payments. It should be an email account that the payee is checking regularly.

[16] Signature. The request summary sheet should be signed off by or on behalf of the Sovereign.

[17] The summary sheets list all the items of documentation enclosed to support the Disbursement request application. If there are many items, it is advisable to use a separate summary sheet per category.

[18] The documentation items (contracts, invoices, receipts, etc.) are to be numbered and presented in the same order as they appear on the summary sheets. Their total number should be indicated here to facilitate the EBRD's review.

[8] Description of item. Please describe each item, e.g. "invoice", "receipt", "engineer's certificate", "translation of [...]", etc.

[9] Contract order number and date. It is recommended that the contract is given an original number when it is drawn up between the Sovereign and the Contractor. The EBRD will adopt this number for its own record keeping. If the contract has not been given an original number, the EBRD will allocate it a number and advise the Sovereign at the time of approval. If the Sovereign does not know the number at the time of completing the summary sheet, this part can be left for the EBRD to complete.

The date of the contract/purchase order should also be given in this column.

Note: the same contract may appear in more than one Disbursement request, if delivery of the goods, works or services (see [11]), and therefore payment for these goods, etc., is made in stages.

[10] Name and address of Contractor. Name and address of the counterparty (Contractor) in the contract/purchase order as described in [9].

[11] Brief description of goods, works or services. These goods, works or services should correspond to the details provided in the Contract or other documents presented, and should fall within the Grant Financed Item indicated in [6].

[12] Currency and total amount of Contract. Total amount, in original currency, of the Contract listed in [9].

[13] Currency and amount of eligible expenditure. Per expenditure: total amount due or paid, in original currency, as covered by the invoices or other documents listed in [7] and [8]. When there is more than one "item" for each expenditure, (e.g. an invoice, certificate and receipt, all for the same expenditure), those items should be bracketed and only one amount should be shown in this column.

[14] Amount of financing. For each amount listed in column [13], there should be a corresponding amount in this column [14], calculated at the percentage stated in [6], corresponding to the category of this summary sheet. The amount of financing should be in the original currency of the contract and expenditure (columns 12 and 13). This may or may not be the same as the loan currency or the payment currency.

[15] Total. The amounts of financing, as listed in [14], should be added up into one total amount per currency. For direct Disbursement requests, amount(s) given here should correspond with the amount(s) given in [9] of the direct Disbursement request form.

[16] Signature. The request summary sheet should be signed off by or on behalf of the Sovereign. See request for Disbursement form for signature requirements.
